

CUSTOM FULL DAY OFFERING

About the Workshop

If the Seasonal Pathway, 4 Spheres of Influence, or the I4DM workshops don't sound like it's the *right fit* for your organizations needs - We also offer custom full-day/multi-day facilitation. These offerings are tailored to your organization and what you do. We start with a visioning session and tailor the workshop or engagement to your organization's needs.

A key question we ask of those requesting a custom facilitation is: ***how does this work that you'd like to do with the Circle support the redistribution of resources to Indigenous peoples, organizations, communities and nation's.***

Participants Will Walk Away With

A key element that we hope all participants walk out of our workshops with is an increased sense of accountability to their Indigenous relationships and partnerships.
